Ophelia Info

At this time, forecasters show Ophelia coming in the Southern Shores area with the heavier winds and rain starting Wednesday afternoon then continuing through the night, and into Thursday morning (or later). Right now, Ophelia is presently a very slow-moving storm but will likely pick up speed after it starts our way.

- Now is the time to bring in your outdoor furniture, pool items if you haven't already done so. Anything else that isn't secured to the ground or to your building should either be brought inside or tied firmly to your house or other building.
- Make sure you secure all garbage and recycling cans to your home or put them in the garage. Help your neighbors out if they are not there or don't have email and roll garbage and recycling cans secure under the house.

Persons with Special Needs SHOULD strongly consider voluntarily leaving in case of power outages, diminished medical aid, and other disruptions possibly caused by a major storm. If you know of someone with special needs who intends to remain in Southern Shores, please contact [Town Hall](#) (261-2394) so that we can check on them afterwards.
